CAREER OBJECTIVE

With a strong technical skill-set attention to detail, and 2 years of experience. I want to work as a front-end developer where I could create digital magic and elevate user interface and user experience to the next level.

CAREER SUMMARY

UI Developer - NetAxis IT Solutions

August 2016 - Till Date

- Building online design editor using canvas API and scalable vector graphics.
- Created custom directive and common services for graphics manipulation.
- Implemented various text effects using scalable vector graphics.
- Optimized and managed network request for handling vector graphics.

Software Engineer Trainee - Atomic IT Solutions

May 2015 – July 2016

- Developing and maintaining the front end functionality of websites.
- Building native mobile application for android and ios using react native.
- Developing and maintaining predictable state container for javascript apps using redux architecture.
- Converting the wire frame contents into Visual Design level.

TECHNICAL SKILLS

Web Technologies	: HTML5, JavaScript(ES5, ES6), CSS3
JS Framework	: React, Angular, Fabric, JQuery
Mobile Tech	: React Native
Architecture	: Flux, Redux
Module Bundler	: Webpack, Browserify
Test Framework	: Jasmine
Version Control System	: Git

KEY COMPETENCIES AND SKILLS

- Knowledge of building dynamic UI and reusable components.
- Awareness of the Web Development industry, and new technologies.
- Knowledge of international web standards and protocols.
- Developing websites that have a consistent feel and look throughout all web properties.
- Writing cross-browser compliant XHTML, CSS & JavaScript.
- Performed various text effects using scalable vector graphics.
- Good understanding of asynchronous request handling, partial page updates, and AJAX.

PROFESSIONAL EXPERIENCE

Project #1:

Online Design Editor - An editor for easiest to use design program in the world. The features of the editor are simple drag and drop functionality, different type of text, photo collage and character maker.
